

NON-RESIDENTIAL GAS EXTENSION CONTRACT

#815.07

STATE OF GEORGIA
COUNTY OF FULTON
DATE: 02/27/2019

AFE NO 174163 BCA ID 225374
APPLICANT CITY OF HAPEVILLE
LOCATION 597 N CENTRAL AVE, HAPEVILLE, GA 30354
MAILING ADDRESS 597 N CENTRAL AVE
HAPEVILLE, GA 30354

THIS AGREEMENT, entered into by and between Atlanta Gas Light Company, hereinafter called Company, and CITY OF HAPEVILLE hereinafter called Applicant, witnesseth:

WHEREAS, Applicant owns, or occupies as lessee, certain property in Land Lot No. 95 4th of FULTON County, GEORGIA, being No. 597 N CENTRAL AVE, in the City of HAPEVILLE; and has made application for gas to be supplied by Company to above property; and

WHEREAS, facilities of Company are not now available; and Company is willing to make its facilities available to Applicant, subject to its Rules and Regulations as hereinafter referred to,

NOW, THEREFORE, in consideration of the premises and the mutual benefits to be derived therefrom, the parties hereto bind themselves, their personal representatives, successors and assigns, as follows:

(1) Company will install gas facilities to serve Applicant in accordance with Rule 8 of Company's Rules and Regulations attached hereto, and made apart hereof. The Company will install gas facilities, substantially as configured in Attachment A, including 1 gas meter(s) to serve the total equipment load indicated in Schedule A at a delivery pressure of 2 #. Any changes to these facilities or their configuration required by the Applicant will be provided by the Company and paid for by the Applicant at the Company's current material and labor rates.

(2) Applicant will install and commence using in a bona fide manner within six months after the date of the completion of the extension, and continue to so use for a period of 10 years those appliances and equipment indicated by Schedule A hereof, on which the Company has relied in computing the Estimated Annual Revenues and the allowable investment, as defined in Rule 8 B (1), for facilities allowed free to the Applicant and the advance, if any, to be paid by Applicant to Company.

(3) Within one year after service is commenced to a Customer, the Company will determine if the Estimated Annual Revenues in accordance with Schedule A has been met.

(4) If Based upon this determination, there is a lesser Allowable Investment than that originally granted, and a payment is required in addition to the prior payment by the applicant, if any, such additional payment shall be paid by the Applicant. The total payment(s), if any, by the Applicant shall not exceed the Estimated Cost to Serve indicated in Schedule A unless changes in facilities are required by the Applicant.

(5) Refunds of any payments, contributions or advances hereunder shall be made in accordance with Rule 8 B (4) (c). Refunds will be made if excess allowable investment applied to the refund is above that which is necessary to cover the cost of equipment and facilities of the additional customers. No refund will be made by the Company in excess of the amount advanced by the Customer or Customers nor after the lesser period of five (5) years or the period contracted for in (2). No refund will be given if a new main extension is required to serve these new customers.

(6) No assignment of this Agreement by applicant shall be effective unless prior written approval shall have been granted by Company.

(7) Two or more parties may make a joint advance on the same facilities extension. In such cases the total fee length thereof will be considered to be the sum of the individual allowances that are applicable under the Rules and Regulations of the Company. The amount to be advanced by the members of the group shall be apportioned among them in such manner as they shall mutually agree upon.

(8) Legal and equitable title to all mains, service lines and appurtenances installed under this Agreement shall be and remain in the Company, and the Company shall have the right, without the consent of, or any refund to, the Customer, (a) to extend the gas main or connect additional gas mains to any part of it, and (b) to serve new additional regular customers at any time through service connections attached to such main or to extended or connected gas mains.

(9) This Agreement is subject to all Rules and Regulations of the Company which are now or may hereafter be issued, approved, or otherwise made effective, by the Georgia Public Service Commission, or by any other governmental body having jurisdiction with respect to the Company. References herein to certain portions of such Rules and Regulation, as they now exist, shall not be construed as exclusive, and all other portions in effect from time to time shall apply as fully as though they had been specifically referred to herein. The Company may rescind this offer if either party fails to execute the contract within 45 days of the day and year above.

(10) Applicant acknowledges that in executing this Agreement they have not relied upon any representation by the Company relating to the estimated completion date of the gas extension covered by this Agreement.

Schedule A		
A	Estimated Cost To Serve	\$2,290.54
B	Estimated Annual Revenue	\$447.97
C	Contribution Required by Applicant	\$0.00
D	Total Required by Applicant	\$0.00
E	Contribution Amount Eligible for Refund	\$0.00
F	Customer Gas Equipment	

UseCode	Gas Equipment	Cubic Feet/Hour
C8H	Space Heating	530

**ATLANTA GAS LIGHT COMPANY
NON-RESIDENTIAL MAIN AND SERVICE EXTENSION RULE 8**

Service Lines and Mains necessary to furnish permanent service to Applicants for Nonresidential Service within established service areas of the Company will be constructed by the Company in accordance with the following provisions:

A. General

The Company will construct, own, operate and maintain gas Mains generally along public streets, roads and highways that the Company has the legal right to occupy and, at the Company's election, on public lands and private property across which rights-of-way satisfactory to the Company may be obtained without cost to the Company.

The Company will construct, own, operate and maintain a Service Line of suitable capacity from its Main to the Premises of the Applicant. All such Main and Service Line will be provided pursuant to the following provisions:

B. Extension of Main and Service

Subject to the limitations in C below, the Company shall provide up to the first 125 feet of Main and/or Service Line extension as well as Metering Equipment and Regulating Equipment to each Applicant's Billing Unit at no cost to the Applicant. These 125 feet of Main and/or Service Line and Metering Equipment and Regulating Equipment are in addition to the Allowable Investment as provided below:

1. Calculation of Allowable Investment Beyond the First 125 Feet of Main and Service Line

- (a) The Allowable Investment in Main and Service Line, excluding Metering and Regulating Equipment, to be made by the Company without contribution or payment by the Applicant shall not exceed the Estimated Annual Revenues from the extension divided by the levelized annual carrying charge rate applicable to the investment.
- (b) The levelized annual carrying charge rate shall be calculated by using the weighted average cost of capital as determined by the Commission in the Company's last rate proceeding adjusted for taxes and depreciation required to recover the Company's investment over the expected useful life of the Service Line. These costs will be discounted at the Company's after-tax rate of return.
- (c) The Allowable Investment in Mains and Service Lines shall be based upon engineering cost estimates.
- (d) The Applicant's Estimated Annual Revenues shall be determined by estimating the Dedicated Design Day Capacity plus the customer charge.

2. Contribution by Applicant

In the event that the Allowable Investment beyond the first 125 feet of Main and Service Line is not sufficient to cover the cost of the extension, the Applicant shall pay the excess costs.

3. Length and Location

- (a) The length of Main required for a Main extension or the length of Service Line will be considered as the distance along the shortest practical route, as determined by the Company, from the Company's nearest Main, capable in the opinion of the Company of properly supplying the Applicant. Irrespective of the total Allowable Investment, the Company shall not be required to extend a Main or Service Line a greater distance than necessary in the judgment of the Company to serve an Applicant.
- (b) The Service Line shall be of the size and type required to supply the principal requirements of the Premises served, and shall extend from the Company's Main to the first reasonable acceptable meter location as determined by the Company.
- (c) Company reserves the right to designate the locations and specifications for the main taps, Service Lines, curb cocks, meters and regulators and to determine the amount of space that must be left unobstructed for the installation and maintenance thereof. Applicant may request an alteration of such designation and, if consented to by the Company, the cost of such revised designation in excess of the cost of the original Company design shall be borne by the Applicant regardless of whether the length of Service Line laid as requested by Applicant comes within the Allowable Investment provided in this Rule. Further, the Company may require Applicant to provide both power and phone lines to the location of such metering facilities.

4. Extensions Beyond the First 125 Feet of Main and Service Line

(a) Payment Provisions

The Applicant shall pay to the company the excess cost of the extension beyond the first 125 feet of Main and Service Line, Metering and Regulating Equipment, and the Allowable Investment.

(b) Adjustment of Allowable Investment and Payments

- (i) Within one year after service is commenced to a Customer, the Company will determine if the Estimated Annual Revenues determined in accordance with Section B(1)(d) above have been achieved.
- (ii) If, based upon the above determination, there is a lesser Allowable Investment than that originally granted, and a payment is required in addition to the prior payment by the Applicant, if any, such additional shall be paid by the Applicant.

(c) Refunds of Payments

A portion of an Applicant's payment may be refunded where one or more additional Customers connect to a Main extension that initially required a customer payment under the following:

(i) First, the original Applicant made a payment to the Company for the original Main to establish service.

Second, the original Applicant will receive a credit if an additional Customer establishes service on the original Main.

Third, the calculation of the original Applicant's refund, if any, is the excess to the Allowable Investment attributed to the additional Customer taking service that is greater than the cost to establish service to the additional Customer.

(ii) The Service Line for each additional Customer shall be directly connected to the Main extension and no further extension of Main is required.

(iii) The amount of such refund to the party or parties who made the initial advance shall not exceed the excess Allowable Investment generated.

(iv) When two or more parties make a joint advance on the same extension, any amounts refunded will be distributed to the parties in the same proportion as the original contribution.

(v) No refund will be made by the Company in excess of the amount advanced by the Customer or Customers nor after the lesser period of five (5) years or the period contracted for from the date the Company is first ready to render service from the extension. Any unrefunded amount at the end of the period will become the property of the Company.

(vi) Any additional Main to be connected in any manner to Main already laid or to a Main provided for under an existing agreement for Main extension, as provided for in the Rule, shall be considered a new Main extension, and no refund or repayment of any kind with respect to such new Main or any Customer to be served from or through such new Main shall be made to any Customer who made an advance for the installation of the Main already laid or for the Main provided for under such existing agreement.

(vii) Refunds will be made for funds advanced through the Universal Service Fund if the Commission designates at the time of approval of an application that the specific facts of the application so warrant. Refunds will also be made for funds advanced through the Universal Service Fund for any application which was approved prior to the effective date of this revised provision and which has been designated as appropriate for such refunds by the Commission on or before November 18, 2003.

(d) One Service Line for a Single Premise

The Company will not install more than one Service Line to supply the Premises of an individual Applicant unless for the convenience of the Company or an Applicant requests an additional Service Line and, in the judgment of the Company, an unreasonable burden would be placed on the Applicant if the additional Service Line were not installed. When an additional Service Line is installed under these conditions at the Applicant's request, the Applicant shall pay for the entire length of said additional Service Line, Metering Equipment, and Regulating Equipment at the engineering cost.

(e) Relocation of Service

(i) When in the judgment of the Company the relocation of a Service Line, including Metering and Regulating Equipment, is necessary to maintain adequate service or for the operating convenience of the Company, the Company shall relocate the same at its expense.

(ii) If relocation of a Service Line, including Metering and Regulating Equipment, is for the convenience of the Applicant or the Customer, such relocation shall be performed by the Company at the expense of the Applicant or the Customer.

C. Limitations

1. The first 125 feet of Main and Services, Metering and Regulating Equipment, and the Allowable Investment shall not be made by the Company for Auxiliary or Incidental Uses of Gas.

2. The Company shall not be required to provide any connection to the Company's system where such connection may have an adverse impact on existing Customers unless the Commission has prescribed a tariff provision designed to eliminate such adverse impact on existing Customers.

D. Special Conditions

(1) Contracts

The Applicant will be required to execute a contract covering the terms under which the Company will install Mains and Service Lines in accordance with the provisions of these Rules and Regulations. The contract will provide that the Applicant will commence using in a bona fide manner within six months after the date of the completion of the extension and continue to so use for the period contracted for, the amount of gas determined for the Dedicated Design Day Capacity and under the Rate Schedule on which the Company's Allowable Investment is based. Such contract will also provide that if the Applicant fails to take service or fails to meet the Dedicated Design Day Capacity, the Company may calculate and bill the Applicant and the Applicant shall pay an amount according to the Company's non-residential Main and Service Line extension rules in effect at the time the extension was made as if service had been requested on the basis of the actual equipment installed and utilized.

(2) Periodic Review

The Company will as soon as practicable after the close of each of its fiscal years review its costs of construction of Mains, Service Lines, and Metering and Regulating Equipment, and file with the Commission the unit charges for such facilities.

(3) Extension for Temporary Service

Extension for temporary service or for operations that in Company's opinion are of a questionable permanence will not be made under this Rule, but will be made in accordance with the rule pertaining to temporary service.

(4) Service From High Pressure Mains

Service shall be provided from a normal distribution facility of the Company. Company reserves the right, at its sole option, to refuse line extensions from any of its lines operating at pressures in excess of 125 PSIG.

(5) Title to Facilities

Legal and equitable title to all Mains, Service Lines, and Metering and Regulating Equipment installed by the Company upon which an advance, contribution, or other payment has been made shall be and remain in the Company, and the Company shall have the right without the consent of, or any refund to, any party who made such advance, contribution or other payment:

- a. To extend the gas Main or connect additional gas Mains to any part of it.
- b. To serve new additional Customers at any time through service connections attached to such Main or to extended or connected gas Mains.

(6) Exceptional Cases

In unusual circumstances when the application of this Rule appears create a hardship to either party, the Company or the Applicant may refer the matter to the Commission for special ruling thereon prior to commencing construction.

(7) Dispute Resolution

In the event that a dispute arises between the Company and a party seeking a line extension from the Company under the provisions of this Rule, the Company or the party may seek an expedited review of the dispute from the Staff of the Commission. Said review shall be completed within 60 days of a written request for such review and shall be limited to a review of the proposed line extension and whether the Company's position regarding said extension is in compliance with Rule 8. At the end of its review, the Staff shall issue a written opinion as to whether the Company's position in the dispute is in compliance with Rule 8. If the issuance of the Staff's opinion does not resolve the dispute to the satisfaction of the Company or the party seeking a line extension, the Company or such party may petition the Commission to resolve the dispute.
